

# Award of Excellence in Technology

	<b>Exemplary (3)</b>	<b>Effective (2)</b>	<b>Baseline(1)</b>	<b>Unsatisfactory (0)</b>
Alignment with award requirements and timeline	Project aligns with all of the award requirements and has been completed within the last 24 months of submission.	Project aligns with most of the award requirements and has been completed within the last 24 months.	Project aligns with a few of the award requirements and has been completed within the last 24 months.	Project does not align with the award requirements and has not been completed within the last 24 months.
Evidence that the technology used addresses the instructional problem	Substantial evidence that the technology used addresses the instructional problem	Considerable evidence that the technology used addresses the instructional problem	Little evidence that the technology used addresses the instructional problem	There is no evidence that the technology used addresses the instructional problem
The technology and its integration into the learning experience	Substantial evidence that technology is logically and seamlessly integrated into the learning experience	Considerable evidence that technology is logically and seamlessly integrated into the learning experience	Little evidence that technology is logically and seamlessly integrated into the learning experience	The technology is not integrated into the learning experience
Visual presentation and the intended audience	Visual presentation is appropriate for the intended audience.	Visual presentation is somewhat appropriate for the intended audience.	Visual presentation not very appropriate for the intended audience.	Visual presentation inappropriate for the intended audience.
Errors within the project	Project is free of all errors.	Project has minor errors.	Project has some errors.	Project has many errors.
Innovation of the project	Project is extremely	Project is somewhat	Project has little	Project is not

	innovative.	innovative.	innovation.	innovative.
Project functions as described	Project functions exactly as described.	Project mostly functions as described.	Project functions somewhat as described.	Project does not function as described.
Project is easy to navigate	Project is very easy to navigate.	Project is easy to navigate.	There are some difficulties navigating the project.	Project is not easy to navigate.
There is evidence of the project's sustainability and scalability	There is significant evidence that the project is sustainable and scalable.	There is reasonable evidence that the project is sustainable and scalable.	There is minimal evidence that the project is sustainable and scalable.	There is no evidence of the projects sustainability and scalability
The project contains aspects of open education (resources, enrollment, licensing, etc.)	Project final product contains three aspects of open.	Project contains two aspects of open.	Project contains one aspect of open	The project does not have an open education component.
